Powers, pastor.

Three hundred and fifty shares have been subscribed for the cannery. We

don't believe there is any enterprise that would do the amount of good for

Columbus that this will, if rightly started and operated. It will increase the

value of land hereabouts, making such a local demand for it that all land avail-

able for culture would be occupied with those who would earn money here and

spend it here. By all means let us have a cannery factory.

The David City Tribune of the 23d ultimo contained a letter from Geo. L. Brown, now traveling in California, that

hits that country, we imagine, just about as it really is. We would like to publish

the letter entire, but have not the space to spare to the subject. As to prices, he

gives: soft coal \$20 a ton, better 50c a lb., potatoes \$4 a bu., etc. He sets forth

the good and the bad—the beauties of the climate and its drawbacks, the real

estate craze, which everybody catches, and the social problems of the future.

dying at 2 o'clock on the morning of the 4th. No one knows the full circum-

stances. He remained unconscious till he died. He was an old settler and

much respected.

Some ladies of the city have organized a musical association to meet bi-

weekly, each one to take an active part at each meeting. According to all re-

ports the first session was a grand success. We have no doubt but the mem-

bers will be greatly benefited, but we would beg leave to suggest that a pub-

lic meeting be held semi-occasionally, which everybody should have the privi-

lege of attending, providing it did not cost too much. The public likes har-

mony, "concert of sweet sounds," with an occasional sprinkle of vocal gymnastics,

and those who can furnish this delightful, mental food, better than the

fabulous ambrosia, should consider twice before saying, nay.

Sudden Death.

About two o'clock in the afternoon of Wednesday, R. S. Mansfield, a brakeman on the Union Pacific, lost his life in the

yards of that road in this city. He slipped from a box car, falling into an open car loaded with machinery. He

got up right away, did the breaking, got down, walked three car lengths to the

caboose, explained to one of the train men that he had injured himself in the

pit of the stomach, and suddenly dropped down and remained uncon-

scious.

Sheriff M. C. Bloedorn, acting as coroner, summoned a jury, John Ewald, H. C. Carrig, C. A. Newman, Wm. Laib, D. C. Kavanagh and Elias E. Pollock,

who found that the deceased "came to his death from internal injuries received by a fall in crossing a car of machinery in the discharge of his duty as brakeman, while in the employ of the Union
